Payment Innovation Partners

John R Kasich
Governor

Governor's Senior Staff

State of Ohio Health Care Payment Innovation Task Force

Office of Health Transformation

- Project Management Team:** Executive Director, Communications Director, Stakeholder Outreach Director, Legislative Liaison, Fiscal and IT Project Managers

Participant Agencies

- Administrative Services, Development, Health, Insurance, JobsOhio, Ohio Medicaid, Rehabilitation and Corrections, Taxation, Worker's Compensation, Youth Services, Public Employee and State Teachers Retirement Systems

Governor's Advisory Council on Health Care Payment Innovation

- Purchasers** (Bob Evans, Cardinal Health, Council of Smaller Enterprises, GE Aviation, Procter & Gamble, Progressive)
- Plans** (Aetna, Anthem, CareSource, Medical Mutual, UnitedHealthcare)
- Providers** (Akron Children's Hospital, Catholic Health Partners, Central Ohio Primary Care, Cleveland Clinic, North Central Radiology, Ohio Health, ProMedica, Toledo Medical Center)
- Consumers** (AARP, Legal Aid Society, Universal Health Care Action Network)
- Research** (Health Policy Institute of Ohio)

Governor's Office of
Health Transformation

1. Ohio Approach to Paying for Value Instead of Volume
2. Patient-Centered Medical Home Model
3. Episode-Based Payment Model

In fee-for-service, we get what we pay for

- **More volume** – to the extent fee-for-service payments exceed costs of additional services, they encourage providers to deliver more services and more expensive services
- **More fragmentation** – paying separate fees for each individual service to different providers perpetuates uncoordinated care
- **More variation** – separate fees also accommodate wide variation in treatment patterns for patients with the same condition – variations that are not evidence-based
- **No assurance of quality** – fees are typically the same regardless of the quality of care, and in some cases (e.g., avoidable hospital readmissions) total payments are greater for lower-quality care

27 states are designing and testing payment innovation programs

Shift to population-based and episode-based payment

Payment approach

Population-based
(PCMH, ACOs, capitation)

Episode-based

Fee-for-service

(including pay for performance)

Most applicable

- Primary prevention for healthy population
- Care for chronically ill (e.g., managing obesity, CHF)
-
- Acute procedures (e.g., CABG, hips, stent)
- Most inpatient stays including post-acute care, readmissions
- Acute outpatient care (e.g., broken arm)
-
- Discrete services correlated with favorable outcomes or lower cost

5-Year Goal for Payment Innovation

Goal

80-90 percent of Ohio's population in some value-based payment model (combination of episodes- and population-based payment) within five years

State's Role

- Shift rapidly to PCMH and episode model in Medicaid fee-for-service
- Require Medicaid MCO partners to participate and implement
- Incorporate into contracts of MCOs for state employee benefit program

Patient-centered medical homes

Episode-based payments

Year 1

- In 2014 focus on Comprehensive Primary Care Initiative (CPCi)
- Payers agree to participate in design for elements where standardization and/or alignment is critical
- Multi-payer group begins enrollment strategy for one additional market

- State leads design of five episodes: asthma acute exacerbation, perinatal, COPD exacerbation, PCI, and joint replacement
- Payers agree to participate in design process, launch reporting on at least 3 of 5 episodes in 2014 and tie to payment within year

Year 3

- Model rolled out to all major markets
- 50% of patients are enrolled

- 20 episodes defined and launched across payers

Year 5

- Scale achieved state-wide
- 80% of patients are enrolled

- 50+ episodes defined and launched across payers

Ohio's Health Care Payment Innovation Partners:

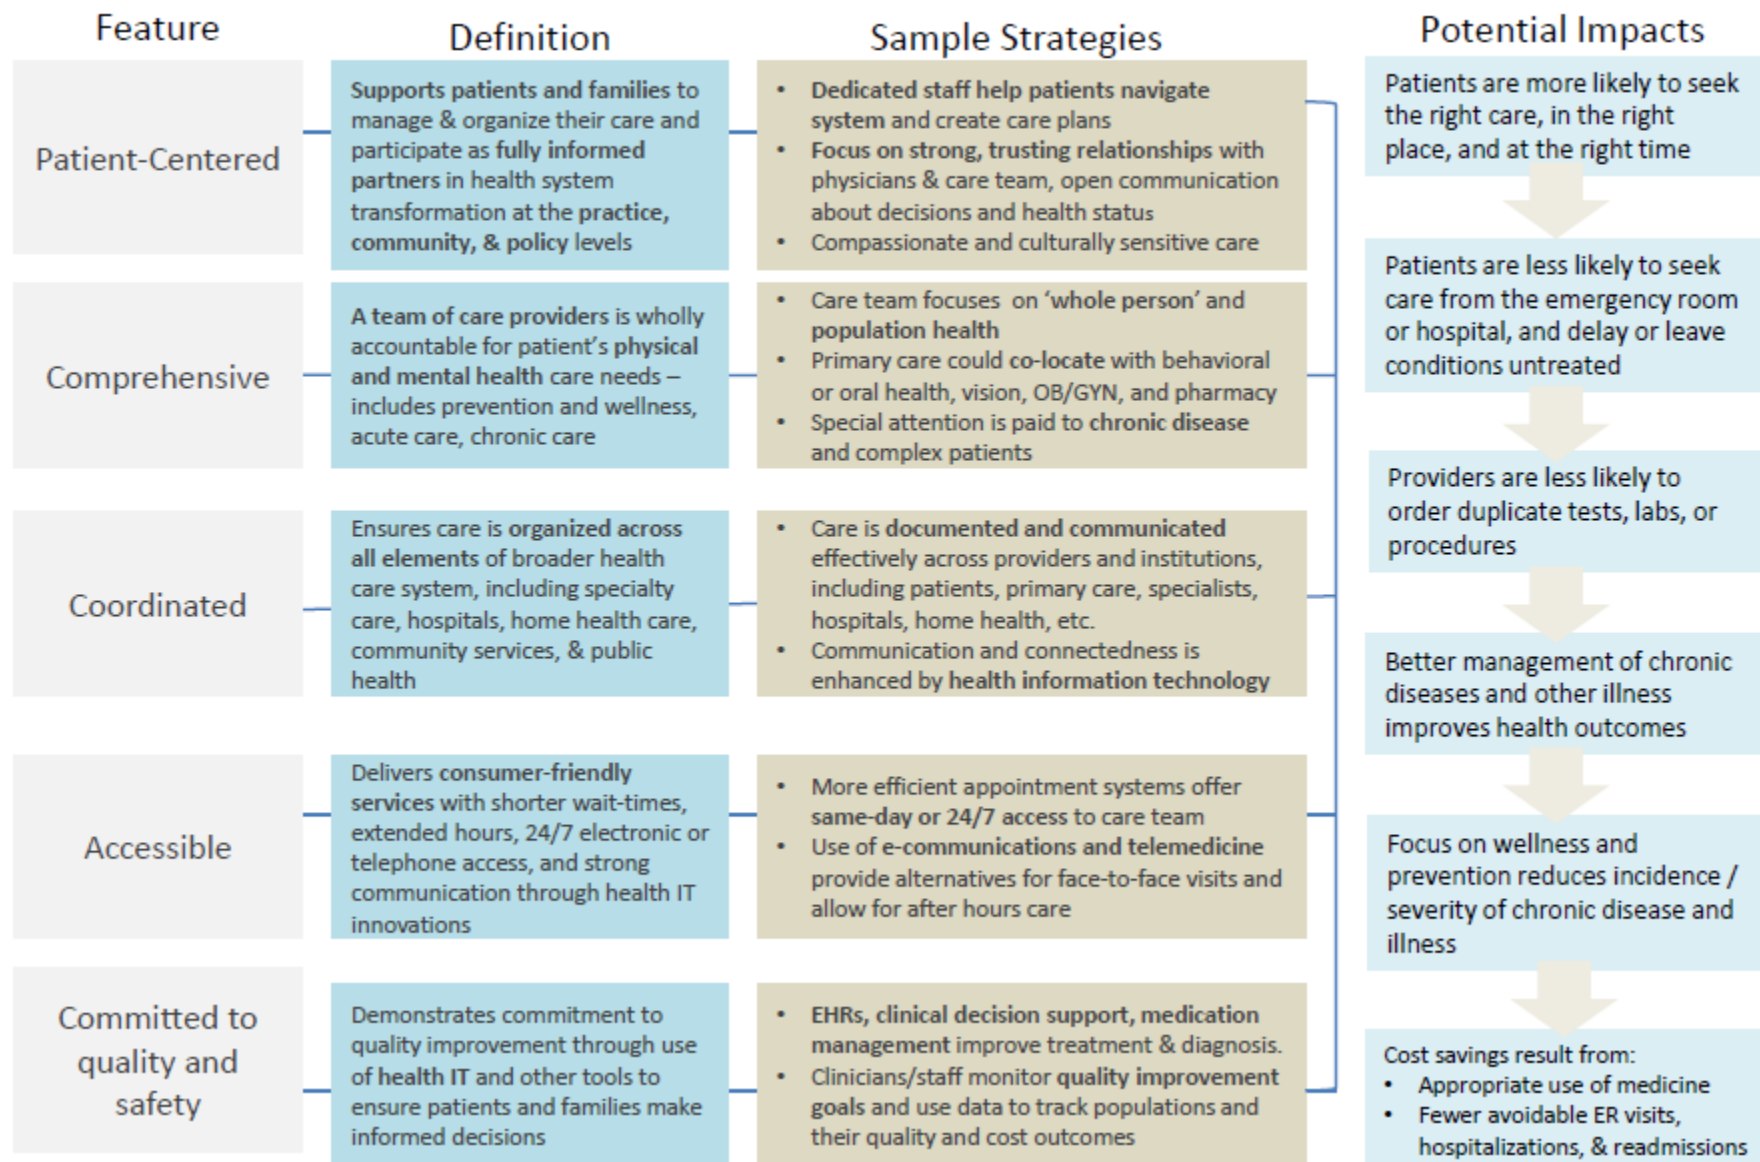

Governor's Office of
Health Transformation

1. Ohio Approach to Paying for Value Instead of Volume
2. Patient-Centered Medical Home Model
3. Episode-Based Payment Model

Why the Medical Home Works: A Framework

Source: Patient-Centered Primary Care Collaborative (2014)

PCMH Care Delivery Improvements

- Risk-stratified care management (care plans, patient risk-stratification registry)
- Access and continuity of care (team-based care, multi-channel access, 24/7 access, same day appointments, electronic access)
- Planned care for chronic conditions and preventive care
- Patient and caregiver engagement (shared decision-making, more time discussing patient's conditions and treatment options)
- Coordination of care across the medical neighborhood (follow up on referrals, integrate behavioral and physical health needs, coordinate with all forms of insurance including BWC)

PCMH Payment Incentives

- Payers agree to provide resources to support business model transformation for a finite period of time, particularly for small, less capitalized practices
- Agree to provide resources to compensate PCMH for activities not fully covered by existing fee schedules (care coordination, non-traditional visits like telemedicine, population health)
- Agree to reward PCMHs for favorably affecting risk-adjusted total cost of care over time by offering bonus payments, shared savings, capitation, or sub-capitation.

Benefits of Implementing a PCMH

PCMH	Fewer ED visits	Fewer Hospital Admissions	Cost savings
Alaska Medical Center	50%	53%	
Capital Health Plan, FL	37%		18% lower claims costs
Geisinger Health System, PA		25%	7% lower total spending
Group Health of Washington		15%	\$15 million (2009-2010)
HealthPartners, MI	39%	40%	
Horizon BCBS, NJ		21%	
Maryland CareFirst BCBS			\$40 million (2011)
Vermont Medicaid	31%		22% lower PMPM (2008-2010)

Comprehensive Primary Care Initiative

- Dayton/Cincinnati is one of only seven CPCI sites nationally
- Bonus payments to primary care doctors who better coordinate care
- Multi-payer: Medicare, Medicaid, nine commercial insurance plans
- 75 primary care practices (261 providers) serving 44,500 Medicare enrollees in 14 Ohio and 4 Kentucky counties
- Practices were selected based on their use of HIT, advanced primary care recognition, and participation in practice improvement activities
- Supported by a unique regional collaborative: The Greater Cincinnati Health Council, the Health Collaborative, and HealthBridge

Regional Health Improvement Collaboratives

- 20 episodes defined and launched across payers

- 50+ episodes defined and launched across payers

Retrospective episode model mechanics

Patients and providers continue to deliver care as they do today

1 **Patients** seek care and select providers as they do today

2 **Providers** submit claims as they do today

3 **Payers** reimburse for all services as they do today

Calculate incentive payments based on outcomes after close of 12 month performance period

4 Review claims from the performance period to identify a **'Principal Accountable Provider'** (PAP) for each episode

5 Payers calculate **average cost per episode** for each PAP¹

Compare average costs to predetermined "commendable" and "acceptable" levels²

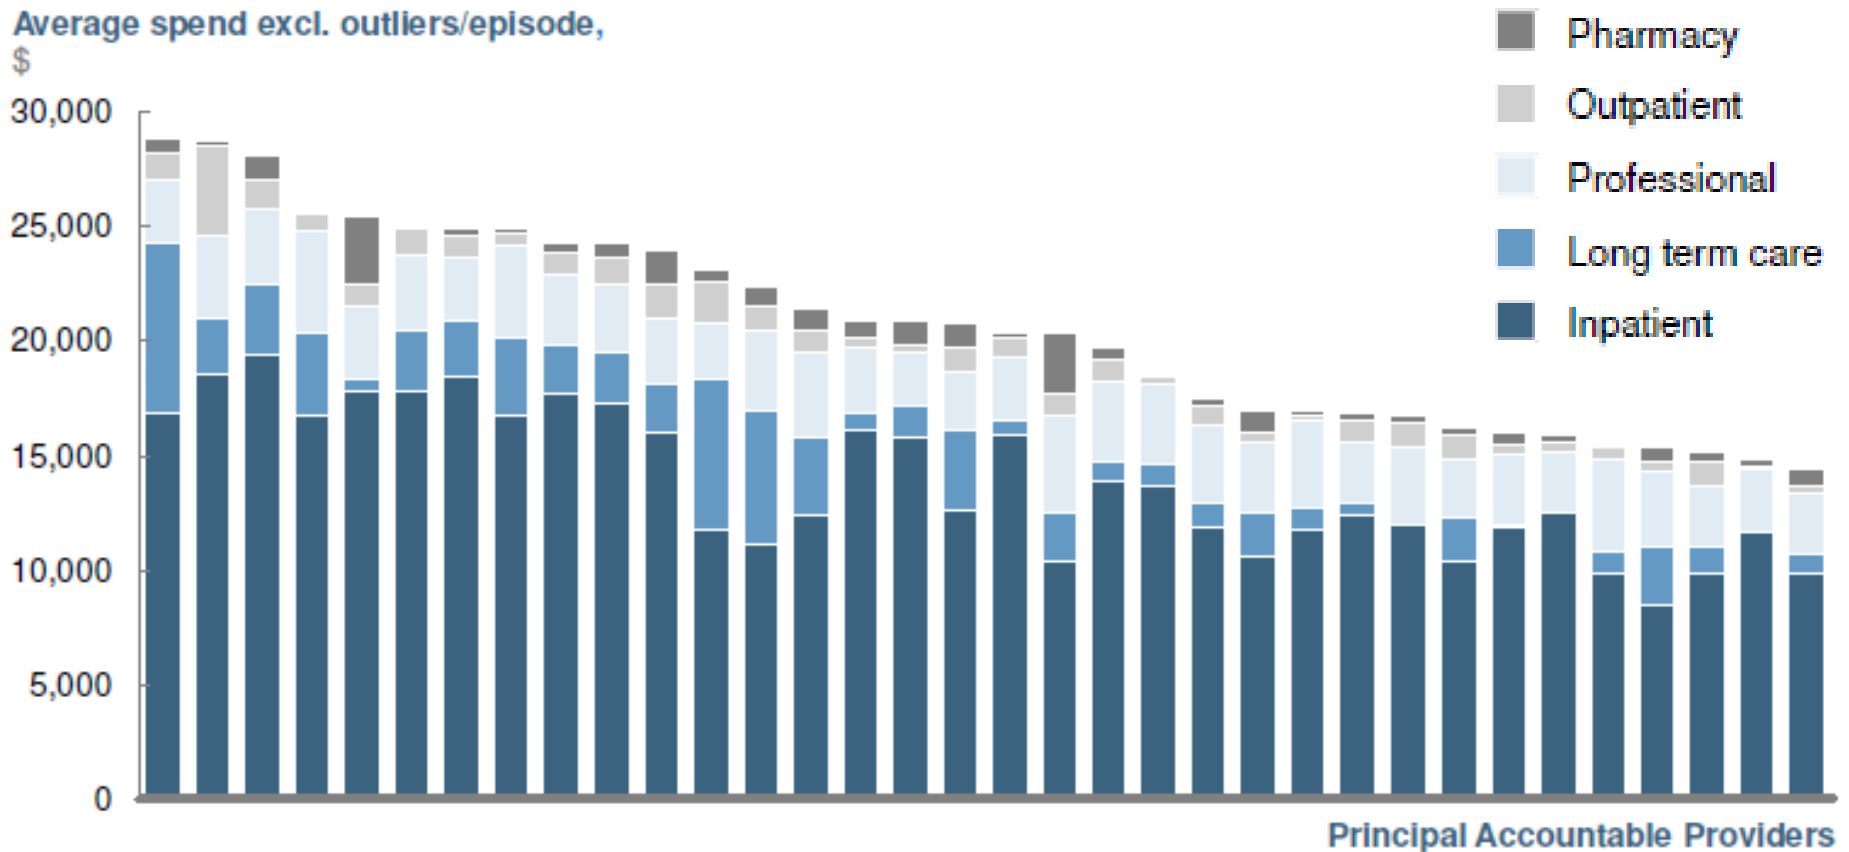

- 6** **Providers may:**
- **Share savings:** if average costs below commendable levels and quality targets are met
 - **Pay part of excess cost:** if average costs are above acceptable level
 - **See no change in pay:** if average costs are between commendable and acceptable levels

Retrospective thresholds reward cost-efficient, high-quality care

Provider cost distribution (average episode cost per provider)

Preliminary Provider Summary: Total Joint Replacement Episode Distribution by Claim Type

Selection of episodes in the first year

Guiding principles for selection:

- Leverage episodes in use elsewhere to **reduce time to launch**
- Prioritize meaningful **spend across payer populations**
- Look for opportunities with **clear sources of value** (e.g., high variance in care)
- Select episodes that incorporate a **diverse mix** of accountable **providers** (e.g., facility, specialists)
- Cover a **diverse set of “patient journeys”** (e.g., acute inpatient, acute procedural)
- Consider **alignment with current priorities** (e.g., perinatal for Medicaid, asthma acute exacerbation for youth)

Working hypothesis for episodes in the first year:

- Perinatal
- Asthma acute exacerbation
- Chronic obstructive pulmonary disease (COPD) exacerbation
- Joint replacement
- Acute and non-acute percutaneous coronary intervention (PCI)

This is a sample report; the actual report is under development

Governor's Office of Health Transformation

EPISODE of CARE PAYMENT REPORT

PERINATAL

REPORTING PERIOD: July 1st, 2013 to June 30th, 2014

PAYOR NAME : Medicaid, Ohio

PROVIDER CODE : HGY28731

PROVIDER NAME : John Smith

Reporting period covering episodes that occurred between July, 1st, 2013 and June 30th, 2014

You would have been eligible for gain sharing of **\$14,563**

Episodes inclusion and exclusion

Total: 328 Episodes

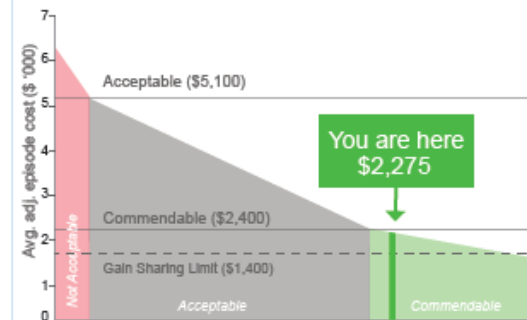

EXCLUSION

INCLUSION

Risk adjusted average cost per episode

Distribution of provider average episode cost (risk adj.)

Episodes risk adjustment

25% of your episodes have been risk adjusted

Quality metrics

You achieved 3 of 3 quality metrics linked to gain sharing

HIV Screening	99%	✓
GBS screening	87%	✓
Chlamydia screening	90%	✓

Potential gain/risk share

If you had performed in the top quartile, your gain sharing would have been

between **\$18,500** and **\$53,000**

Ohio is ready to test its model

Ohio applying for SIM Round 2 funding for model testing

- Up to \$700M to be allocated to up to 12 states
- Test innovative payment and service delivery models over a 4-year period

Timeline

- 5/22/14** – Federal announcement
- 6/6/14** – Ohio letter of intent to apply
- 7/21/14** – Round 2 application due
- 10/31/14** – Anticipated notice of award
- 1/1/15-12/31/18** – Performance period

Current Initiatives

Modernize Medicaid

Extend Medicaid coverage to more low-income Ohioans
Reform nursing facility reimbursement
Integrate Medicare and Medicaid benefits
Prioritize home and community based services
Create health homes for people with mental illness
Rebuild community behavioral health system capacity
Enhance community developmental disabilities services
Improve Medicaid managed care plan performance

Streamline Health and Human Services

Implement a new Medicaid claims payment system
Create a cabinet-level Medicaid department
Consolidate mental health and addiction services
Simplify and integrate eligibility determination
Coordinate programs for children
Share services across local jurisdictions

Pay for Value

Engage partners to align payment innovation
Provide access to patient-centered medical homes
Implement episode-based payments
Coordinate health information technology infrastructure
Coordinate health sector workforce programs
Support regional payment reform initiatives
Federal Health Insurance Exchange

- **Ohio's Innovation Model Test Grant Application**
- **Multi-Payer PCMH Charter**
- **Multi-Payer Episode Charter**
- **Detailed Episode Definitions**

- Governor Kasich created the Office of Health Transformation to improve overall health system performance
- Pay for health care value instead of volume across Medicaid, state employee, and commercial populations
 - Launch episode based payments in November 2014
 - Take Comprehensive Primary Care to scale in 2015
- Partners include Anthem, Aetna, CareSource, Medical Mutual, and UnitedHealthcare, covering ten million Ohioans
- Build on momentum from extending Medicaid coverage, Medicare-Medicaid Enrollee project, Medicaid health home
- Comprehensive, complementary strategies for health sector workforce development and health information technology
- Active stakeholder participation – 150+ stakeholder experts, 50+ organizations, 60+ workshops, 15 months and counting ...
